

February 10, 1992

Dear Dr. Betty T. Bennett &  
Dr. Stuart Curran,

Enclosed is the draft of my paper to be read at the session. I want to have it in better English, if possible, at your suggestion. I am not going to read the whole thing, but to skip some places (for instance, the simple list of the articles, etc.) so that I may not take more than thirty minutes. A BIBLIOGRAPHY as the handout should be brought to the meeting place to be distributed among the audience.

Looking forward to having your suggestion and also to hearing further information on the session,

Sincerely yours,

Shigetoshi Ishikawa
